

Introducing **COCOTANG India**

Pioneering the World's First Exclusive Tender Coconut Milkshake Brand

Dr. Neelima, a dentist by profession and an innovator at heart, proudly presents **COCOTANG India**—the world's first and only brand exclusively dedicated to **tender coconut milkshakes** and **coconut-based mocktails**. This groundbreaking venture offers a wide range of **100% natural, preservative-free** beverages that retain the essence of coconut in its purest form—untouched by any chemical or artificial processing.

Inspired by the simple joy of drinking coconut water in childhood, Dr. Neelima stumbled upon the idea of a coconut-based milkshake, transforming it into a health-driven innovation. **COCOTANG's** unique formulations are not just refreshing—they also address specific health concerns, including **special detox drinks** crafted using fresh coconut milk. What sets **COCOTANG** apart is its **exclusivity** in the coconut-based beverage market. No other brand focuses solely on coconut milkshakes with such natural authenticity and health benefits. True to its roots and values, **COCOTANG** is also **eco-conscious**. The entire production process is natural and sustainable—**causing no harm to the environment**. All by-products are efficiently utilized and are completely **biodegradable**, making **COCOTANG** a truly green brand. **COCOTANG India** is not just a product; it's a revolution in health-conscious, sustainable, and innovative beverages—**born from nature, crafted with care**

No. Of Employment:	25
Mentor:	Mr. Ashok Kumar Gupta
Mentor Occupation:	Managing Director, Rock Well Industries

Cocotang India

Cocotang India is a health-focused beverage brand founded by Dr. Neelima Tippavanhla, offering a wide range of tender coconut water-based drinks, including mocktails, fruit-infused shakes, and pulp-based blends—entirely dairy-free, preservative-free, and vegan-friendly.

Their menu includes popular choices like Coco Lemonade, Bliss Mango, Red Queen, and detox options such as Hangocur, each blending tender coconut water or pulp with real fruits and botanicals for flavour and nutrition.

Monolaurin, a natural immune-boosting compound found in coconut pulp, is a key ingredient—valued for its antimicrobial and health-promoting properties, making their drinks suitable across age groups, from infants (6+ months) to the elderly BYST.

The brand emphasizes fresh, locally sourced ingredients and seasonal innovation—rolling out new flavours every three months. They have several cafes and delivery outlets in Hyderabad (e.g. Madhapur, Tolichowki) and are expanding their online reach via platforms like Dunzo and Zomato. Cocotang has earned accolades including national entrepreneurship awards and recognition for sustainable innovation.

Whether you're after a refreshing real-fruit mocktail or a nutritious coconut-pulp shake, Cocotang brings a tasty, healthy, and eco-conscious option.
